## IDC Health Insights: Value-Based Health

Strategic Priorities	Programs				Use Cases		
Convenient Access to Care	Telehealth	<b></b>	Remote Health Monitoring	Health & Wellness	Consumer Virtual Care	EHR-Based Telemedicine	Tele-Emergency Medical Services (EMS)
			Robotic Telepresence	Virtual Diagnostics Interface	Digital Behavioral Health Therapy	Symptom Checker	Care Anywhere
	Clinical Communication & Collaboration	•	Secure Clinician Messaging	Patient – Clinician Communication	Clinician – Clinician Communication	Health Information Exchange / Interoperability	Immersive Visualization
			Al Powered Clinical Translation				
	Clinical Outcomes Management	)	Machine Learning-Driven Predictive Analytics	Hospital at Home	Post-Acute Care Management	Integrated social and health care plans	Integrated clinical, financial, social & human service data
Financial & Clinical Risk Management			Prescriptive Care Plans	Medication Adherence	Patient Personal Assistant	Passive Patient Assessment and Monitoring	Embedded public health disaster guidance
			Fraud, Waste and Abuse	Credentialing (Blockchain)	Robotic Process Automation- Based Claims Processing	EHR Optimization	Al Powered Clinical Summarization
	Process Optimization	•	Next-Generation Clinical Documentation	Next-Generation Revenue Cycle	Medical Imaging Al	Patient Financial Management	Intelligent Capacity Planning
			Prior Authorization Optimization	Payer Accessed Scheduling			
	Contract & Network Management	<b>)</b>	Contract Management	Directory Accuracy	Concurrent Value-Based Reimbursement	Network Adequacy	Price Transparency
Operationalizing Data & Information  Consumer Centricity			Referral Management				
	Enterprise and Resource	<b>)</b>	Clinical and IT Asset Management	Distributed Supply Chain Management (Blockchain)	Clinical and Non-Clinical Grade RTLS	Autonomous Mobile Robotic and Drone Logistics	Digital Workspace Collaboration
	Management		Data Platform Management	Predictive Supply Chain	Medical Imaging Convergence	Predictive Workforce Management	Identity, Access, and Consent Management
	Patient of One	•	Digital Front Door	Coordinated Consumer Transactions	Continuous Segmentation	Independent Product/Plan Configuration	RPA Customer Service

## Value-Based Health Digital Roadmap
